12 September 26, 2002

13 TO THE DIRECTOR OF THE PATENT AND TRADEMARK OFFICE:

14 Applicants request that prior to the examination of the above-identified application, the  
15 preliminary amendments as set forth below be entered. As no existing claims are being amended, a  
16 marked-up version of the claims is not included herewith.

17 CLEAN VERSION OF THE AMENDMENTS

18 Amendment to the Claims

19 In the Claims:

20 Please add new Claims 31 – 34 as follows:

21 31. The method of Claim 1, further comprising the step of enabling the modifications to be  
22 made by a user to the components of the data on a client while the client is not coupled to the server  
23 over the network, the modifications being subsequently uploaded to the server while the client is then  
24 coupled to the server over the network.

25 32. The method of Claim 11, wherein the step of enabling the nodes that were downloaded  
26 from the server by any client to be modified on said client includes the step of enabling the nodes to  
27 be modified while the client is not connected to the server.

28 33. The method of Claim 19, wherein the step of enabling the nodes that are downloaded  
29 from the storage device to be modified by any remote computing device having the rights to do so  
30 includes the step of enabling the nodes to be modified while the remote computing device is not  
31 connected to the storage device.

32 34. The system of Claim 25, wherein the machine instructions executed by the processor of  
33 the client computing device to enable modification of the nodes while the client computing device is  
34 not connected to the server computing device.--
